Certificate Course in Dental Endodontics

The Certified Course in Dental Endodontics/Operative is designed to provide individuals with the specialized skills and knowledge required to function effectively as technicians or assistants in dental endodontic and operative procedures. This six-month program focuses on the technical aspects of endodontics and operative dentistry, including instrument preparation, material handling, and chairside assistance.

Program Objectives

- To provide comprehensive training in endodontic and operative dental instruments and materials.
- To develop skills in instrument preparation, sterilization, and maintenance.
- To impart knowledge of dental anatomy and operative procedures.
- To instill a strong foundation in chairside assistance and infection control.
- To prepare graduates for entry-level positions in dental endodontic and operative clinics.

Eligibility

- Minimum 12 years of education

Mode of Teaching

The program will be delivered through a combination of:

- Lectures
- Practical workshops
- Case studies
- Research projects
- Online learning (if applicable)

Fee Structure

- PKR 75K/
- Installment Available

Duration:

- 6 Months
