Postgraduate Diploma in Oral Public Health

The Postgraduate Diploma in Oral Public Health is designed to equip dental professionals with advanced knowledge and skills in the field of public health dentistry. The program focuses on the prevention and control of oral diseases, the promotion of oral health, and the development of effective oral health programs. Upon completion, graduates will be qualified to assume leadership roles in public health dentistry and contribute significantly to improving oral health outcomes within their communities.

Program Objectives

- To deepen knowledge and understanding of the principles and practices of public health dentistry.
- To develop proficiency in epidemiological methods and research for tackling oral health issues.
- To cultivate leadership and management skills for planning, implementing, and evaluating oral health programs.
- To foster critical thinking and problem-solving abilities for addressing oral health challenges.
- To prepare graduates for advanced roles in oral health policy development and advocacy.

Eligibility

- A BDS degree or equivalent qualification in the relevant field from a recognized institution.
- Current registration with the PMDC.

Mode of Teaching

- The program will be delivered through a combination of:
 - Online learning platforms (weekend classes)
 - Research projects
 - Independent study

Fee Structure

- PKR 185k/- per year
- Installment Available
